	Household Consisting of a Couple in Their 30s and a Four-Year-Old Child	161,000 yen	8,000 yen	24,000 yen	125,000 yen	3,000 yen

(*) The figures for each period are rounded and therefore may not match the total. (*) The rate of additional benefit payments relative to the previous levels varies depending on the period. (+0.8% from August 2013, +1.6% from April 2014, and +2.4% from April 2015) (*) The above amounts are provided as examples for certain household categories. Supplemental allowances are not included, and from October 2018 onward, only the year-end temporary assistance payment (paid each December) is applied for the number of months for which payments are made. Therefore, please note that the amounts may be larger than those shown above if supplemental allowances were applied, or if, from October 2018 onward, expenses for daily necessities for hospitalized patients and other allowances were applied. (*) "Grades" refer to classifications designated for each municipality whereby regional differences are reflected in the standard amounts based on differences in living conditions and lifestyles and are divided into six categories ranging from Grade 1-1 to Grade 3-2.

Beware of Fraud!

No one will ask you for your bank card PIN, ask you to operate an ATM, or ask you to transfer a fee in relation to these additional benefit payments. Please be careful of scams.
